

**Eberswalde
University for
Sustainable Development**

Forest Information
Technology (M.Sc.)

Global Change
Management (M.Sc.)

Forestry System
Transformation (M.Sc.)

Most welcome to the Faculty of Forest and Environment!

Due to the worldwide pandemic, our winter term is expected to be a mixture of face-to-face teaching and live-streamed seminars in Eberswalde as well as pure online seminars.

The voluntary and recommended **opening session** and introductory week for our first semester master students (Forest Information Technology, Global Change Management and Forestry System Transformation) will start on **Monday, 20th of September 2021 at 10:30 am**. You are welcome to participate **live on the forest campus or online**. If you plan to be in Eberswalde for the opening session, please let us know at the latest by September 14th for our further planning (to: kristina.jordan@hnee.de; ALWAYS briefly stating the name of your respective study programme), as the COVID-19 hygiene regulations restrict the maximum number of people in a lecture hall / seminar room.

A **voluntary one-week intensive course in English**, to facilitate the introduction to the English-language teaching of the study programme, or an **introduction to the German language and culture**, for a better understanding of your possibly new host country, will start at 13th of September 2021 on-site at Eberswalde University for Sustainable Development. If you plan to participate in one of the courses, please let us know at the latest by September 5th (to: kristina.jordan@hnee.de).

Further and up-to-date information on the detailed programme of the introductory week of each master programme can soon be found on the homepage of the respective study programme (www.hnee.de/fit / www.hnee.de/gcm / www.hnee.de/fst).

We hope that we will all meet personally as soon as possible.

We are looking forward to meeting you – stay healthy!

Prof. Dr. Tobias Cremer
Dean
Faculty of Forest and Environment
